Doggie dooley instruction manual

We have been using the Doggie Dooley for one month. I heard about it on a pet podcast and thought it sounded interesting. Then I went home and checked the price and decided that for \$89.95, I could continue putting the poop in plastic bags! A few months later, I found the Dooley on Costco's website for \$37.99, including an extra one-year supply of enzymes. I decided to give it a shot. I purchased the Model 3016D, which is said to handle 2 large pets or up to 4 small pets. So far, I have been very pleased with the product. It handles the waste of my two Sibes just fine. The instructions recommend depositing poop daily, but I have gone as long as three days before scooping and haven't had any problems. Every time you deposit poop into the Dooley, you also add one gallon of water. Even if I've gone more than one day between poop scooping, I still just put in one gallon of water and it works fine. Once per week, you add some of the enzyme digester powder. The enzyme powder breaks down the poop and then the water washes in down a pipe and into the ground for absorption, just like a septic system. The installation was a pain. The instructions say to dig a 4-foot deep hole. I think at 3-feet, we gave up and went ahead and put the Dooley in the hole. So far, no problems. The Dooley it's self is only about 15-inches deep, so there is still plenty of open area under the Dooley for the water to wash out. The Dooley instructions say that it's not suitable for use in clay soil or when the ground temperature is less than 40 degrees. I would also add that if you have very rocky soil, you may have an even harder time digging the hole for installation and perhaps not want to purchase this product. One more note: The company sells the enzyme digester powder in 6-month supply quantities. That's 6-months for one dog. With two dogs, we have to add twice the amount of digester powder each week, so the 6-month supply is really 3-months. Just something to keep in mind. I'm rating the Dooley at 3 Claws. It performs just fine, but may not be suitable for some huskies, such as those in colder climates or with rocky or clay soil. It's also a pretty pricey poop disposal system and I'm sure some people don't mind just throwing the poop in the weekly trash pickup for free. 4,310,000 resultsAny time ♦♦ Do not expose the doggie's food to sunlight or heat and keep dirt free. • Be careful not to pull too hard on your doggie's leash as it may become detached. • Keep the doggie's behind clear from any obstructions. • Never put more than one food pellet into the doggie's mouth. Make sure to store your food in 20, 2015 · Start your Doggie Dooley by adding two to three days of dog stools to the unit. Then, mix 2 tbsps. of digester powder to 5 gallons of water. If your water has a high level of chlorine, allow it to sit out overnight or place it in the sun for 2 hours before using. Pour the solution into the Doggie Dooley.Estimated Reading Time: 2 mins Place a handful of the Sodium Bicarbonate in a bowl and then simply add 15 drops of peppermint essential oil and stir to mix thoroughly. Be generous with the peppermint oil and only use a good quality as this helps significantly in killing the bacteria. Apply and leave to start drying out as shown.Estimated Reading Time: 10 mins doggy doo instructions 2013OL Created Date: 8/14/2016 5:13:12 PM 21, 2012 · A video showing how to play the hilarious, award winning Doggie Doo action game from John Adams and troubleshooting hints and tips to help you if your dog s... the pyramid unit has an open bottom, the stools will remain in the hole. Fill the hole in with dirt from the new hole. The stools will continue to break down at a slower pace as they naturally would. If discarding the unit, simply bag the Doggie Dooley® and dispose with your regular trash. the opening for the dog door with a hand saw. Start in one corner and cut along the outline you made with the template. From outside the house, insert the side with no flap into the outer frame of the dog door. Make sure it sits flush against the door. 07, 2017 · November 7, 2017 1:51 pm Published by Admin Doggie Doo is everyone's favorite pup! Feed your doggie, squeeze the leash, and after he makes his gassy sounds - plop! If you are the player who cleaned up the doo, you get a fart token. a dog person, you probably think about dog poop more often than your dogless neighbors, especially when it comes to cleaning it up in the yard.
