I use 2-3 drops per application, maybe 4-5 in my diffuser, even less than that in a roller bottle application. Because essential oils are so powerful. After doing mine, I chose dōTERRA essential oils for our family. If you'd like to purchase this oil at retail cost, you may do so here. Because there isn't regulation in the essential oil market, you need to do your research. After all, they can cost more than your favorite pair of jeans just for a small bottle. There are 250 drops in a 15 mL bottle. Plus, every few months dōTERRA has specials where you can get even more free oils. Most people find that they spend a lot less on health care when they start using essential oils. You can also dilute it with a carrier oil and that makes the bottle go a long way and it works just as well as the non-diluted oil. But what you need to consider is that essential oils are concentrated. The chart below shows the cost per drop at the wholesale price but that doesn't even include other ways to save, like with a monthly order you get up to 30% in free product points and may qualify for the free product of the month. That gives you a per drop price of 14 cents. Please, please don't use these tips and tricks with any other brand (it's not safe, nor will you get the benefits that you will from these). Unlike a lot of other essential oil companies, there are no fillers or additives added in with the essential oils. To find out why, check out my blog post about Certified Pure Therapeutic Grade essential oils. This means you don't even up spending tons of money on supplements that kind of work, but not really. However, if you'd like to purchase them at wholesale cost (think Costco or Sam's!), check out this post about how to get a membership to pay 25% LESS than you would otherwise! Plus, not only are dōTERRA essential oils concentrated, they contain nothing else in the bottle with them. There are 80 drops in a 5 mL bottle. And a lot of little drops fit in a little bottle of essential oils, so it ends up making the dōTERRA Price Per Drop a lot less than you may think. One drop goes a long way. There are 150 drops in a 10 mL roll-on. dōTERRA essential oils may seem expensive when you first start to look into them. Image not available for Color: To view this video download Flash Player When it comes to essential oils, I think the biggest argument I hear from prospective oil users is "But they're SO expensive!" True, when you look at a kit, it looks pricey, but when you divide it, the updated 2019 dōTERRA essential oils price per drop ends up being extremely inexpensive. dōTERRA essential oils price per drop is extremely important if you want to convince your spouse or family member that it is, in fact, a cost-effective way to help your family feel better. Take the wholesale cost of \$35 divide by 250 drops for a 15ml bottle. Why? That means... dōTERRA essential oils price per drop is literally pennies per "dose." Down below, I've listed each and every oil that dōTERRA sells (some only available seasonally, plus one that's no longer available for purchase), including their retail and wholesale prices. The dōTERRA Difference I recommend only one brand of essential oils: dōTERRA essential oils. Here are other dōTERRA posts you may also like: The Best DIY dōTERRA Essential Oil Cleaning Recipes The Best Ever DIY Beauty dōTERRA Essential Oil Recipes My Favorite dōTERRA Diffuser Blends The 25 Best dōTERRA Essential Oil Party Snack Recipes dōTERRA Price Per Drop 5/5 (2) View price list for all dōTERRA essential oils View the dōTERRA product catalog To calculate the price per drop for an item not on the chart below, I will use copaiba as an example. Another reason they are affordable is that they work. Aren't Essential Oils Expensive? One drop goes a long way and each bottle lasts a long time. The oils are highly concentrated which makes it nice cause then you really don't need a lot of drops when using them.
